TENBURY RURAL DISTRICT COUNCIL

To: The Chairman and Members of Tenbury Rural District Council.

Lady and Gentlemen,

I have the honour to present to you my Report for the year 1959.

SECTION A.

Area in Acres	31,244.
Registrar General's estimate of resident population mid 1959.	5,420.
Number of inhabited houses at end of 1959	1,756
Rateable Value	£37,238
Sum represented by a Penny Rate	£149. 10. 1.

SOCIAL CONDITIONS.

The district comprises fourteen parishes and except for the small market town of Tenbury it is entirely rural in character. Agriculture, including fruit and hop growing, is the chief industry of the rural area and provides work for most of the population. A large proportion of residents in the Town of Tenbury find work in factories bordering the town.

During the Autumn months the population is increased by fruit and hop pickers, mostly women and children, brought into the district and accommodated in special quarters on the farms. As more hop-picking machinery is installed there is a progressive decrease in this seasonal influx of workers from the Black Country. Accommodation in the district was only needed for 159 pickers; a decrease of 196 pickers from the previous year.

There is a large number of farms and small holdings in the Area. The amount of unemployment varies very little.

3.  
VITAL STATISTICS.

<u>LIVE BIRTHS.</u>	<u>MALES</u>	<u>FEMALES</u>	<u>TOTAL 1959</u>	<u>TOTAL 1958.</u>
Legitimate	45	41	86	84

SECTION B.GENERAL PROVISION OF HEALTH SERVICES IN THE AREA.

In carrying out my duties as Medical Officer of Health for the Area, I have the assistance and co-operation of Mr. R.B. Weeks as Public Health Inspector, who succeeded Mr. J.E. Parkinson on his death in February, and Mr. D. Knight, Additional Public Health Inspector (from June).

AMBULANCE FACILITIES.

The Ambulance Service is the responsibility of the Worcester County Council "Local Health Authority." The ambulance is stationed at Tenbury.

LABORATORY FACILITIES.

The County Council laboratory at Worcester undertakes the examination of producer samples of food, milk and water. The remaining bacteriological and pathological examinations are carried out at the Public Health Laboratory, Worcester Royal Infirmary.

HOSPITALS.

The Tenbury Hospital is quite close to the town, and though being in the parish of Burford, Shropshire, it receives cases chiefly from the town and district of Tenbury. It is very well equipped.

For infectious diseases the Worcester Isolation Hospital is chiefly used and Hayley Green Isolation Hospital is also available.

The Blakebrook Hospital at Kidderminster is also available and for maternity cases accommodation is provided in three maternity hospitals.

All hospitals are the responsibility of the Birmingham Regional Hospital Board.

TUBERCULOSIS.

Dispensary and Sanatorium treatment is provided by the Regional Hospital Board. The nearest hospital dispensaries are Kidderminster General Hospital and Worcester. There are sanatoria at Knightwick and St. Wulstans, Malvern.

The Local Health Authority is responsible for prevention and after-care and the administration is undertaken by the After-care sub-Committee of the Divisional Area Health Committee.

VENEREAL DISEASE.

Treatment and supervision is arranged at the nearest hospital centre, i.e. Kidderminster General Hospital and Worcester Royal Infirmary.

NURSING IN THE HOME.

There are five District Nurses in the area, who also act as midwives and carry out the duties of Health Visitors. Their work is so apportioned as to cover the entire area.

The administration of these services is the responsibility of the Local Health Authority.

SECTION C.SANITARY CIRCUMSTANCES OF THE AREA.WATER.

Samples of the supply to the town of Tenbury have been taken regularly and have proved satisfactory on Analysis. The quantity is variable and requires to be augmented from the Elan Aqueduct to an increasing extent. As a safety precaution the Council has installed a drip feed chlorinating plant.

The Rural Water Scheme Part I. was commenced in the early part of the year and is proceeding well.

DRAINAGE AND SEWERAGE.

The Sewerage Scheme for the Town of Tenbury has been submitted in outline for approval by the Minister.

RIVERS AND STREAMS.

The only serious pollution known to be occurring is that of the River Teme and Kyre Brook at Tenbury which receive untreated sewage from the town.

SCHOOLS.

The proposals to improve sanitary conditions at Lindridge School remain in the planning stage.

The water scheme for Highwood was completed in the spring and piped water is now available at Eastham School.

SECTION D.HOUSING.

No new Council houses were completed during the year.

The high rates of interest on loans to local authorities has slowed down the Council's building programme.

SECTION E.INSPECTION AND SUPERVISION OF FOOD.

1. Milk Supply.

2. Meat and other Foods.

(see report of Public Health Inspector).

No outbreak of food poisoning occurred during the year.

SECTION F.PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASES.Notifications.

During the year I received Notifications of the following cases :-

	CASES	ADMITTED TO HOSPITAL	DEATHS.
Scarlet Fever	4	NIL	NIL.
Measles	33	NIL	NIL.
Pneumonia (Acute)	2	NIL	NIL.

IMMUNISATION AGAINST DIPHTHERIA.

The importance of immunisation against diphtheria in infancy and the need for a reinforcing dose on reaching school age has been, and continues to be explained to parents. Immunisation is carried out at each session in the Welfare Centre and during my visits to Schools.

Number of children under 1 who received Primary Courses	-	34.
" " " 1 to 14 "	-	23.
" " " who received reinforcing doses	-	31.

POLIOMYELITIS VACCINATION.

Considerable progress has been made in vaccinating infants, school children and young adults up to age 25 years.

TUBERCULOSIS.

Two cases were notified during the year.

NEW CASES AND MORTALITY DURING 1959.

<u>Age Period.</u>	<u>New Cases</u>		<u>Deaths.</u>	
	<u>Pul.</u>	<u>Non-Pul.</u>	<u>Pul.</u>	<u>Non-Pul.</u>
0.	0.....	0	0 .....	0.

45	1 .....	0	0 .....	0
55.	0 .....	0	1 .....	0
65.	0 .....	0	1 .....	0
	2 .....	0	2 .....	0

No action was necessary under the Public Health (Prevention of Tuberculosis) Regulations or under Section 172 of the Public Health Act, 1936.

There were in the register at the end of the year the following cases of Tuberculosis :-

<u>Pulmonary</u>		<u>Non-Pulmonary</u>	
<u>M.</u>	<u>F.</u>	<u>M.</u>	<u>F.</u>
8	6	4	1

#### B.C.G. Inoculation.

The Secondary Modern School in Tenbury received their third annual visit for the purpose of skin-testing the 13 + years age group and inoculating with B.C.G. vaccine those showing a negative reaction.

Number invited .....	46
Number of acceptances .....	40
Number positive .....	4
Number negative .....	31

#### CONCLUSION.

The Council's Rural Water Scheme Part I has made good progress and a dry season has been most helpful in encouraging connection to the mains. This supply should prove a great boon to the areas served.

The Tenbury sewerage and sewage disposal scheme is proceeding very slowly and it is hoped that the remaining difficulties will be overcome during the coming year.

I wish to thank the Chairman, members of the Council and the Staff for their help and co-operation during the year.

I am, Lady and Gentleman,

Your obedient Servant,

R. W. MARKHAM

Medical Officer of Health.

REPORT OF PUBLIC HEALTH  
INSPECTOR AND SURVEYOR.

---

To: The Chairman and Members of Tenbury Rural District Council.

Lady and Gentlemen,

I beg to submit my report for the year ended 31st December, 1959.

WATER SUPPLIES (GENERALLY)

Owing to the sudden death of Mr. F. H. Bullock, the Council's Consulting Engineer, in March, Mr. J. K. Seed, his Assistant, is supervising the completion of the Rural Water Scheme, Part I.

The laying of the mains supply of the Rural Water Scheme, Part I. commenced in February. Supplies were laid to the parishes and localities of Bayton, Clows Top, Mamble, Newnham Bridge, Bickley, Knighton-on-Teme, Lindridge, Eardiston and Frith Common.

The first private service water connection was made in Bayton in July and owing to the extremely dry weather conditions experienced during the summer months, there was a higher rate of public demand for water connections than previously anticipated and consequently the work of making these connections was transferred from the Council's Water fitter (who was appointed for the purpose), to the main-laying contractors.

Messrs. John Dossor and Associates, Worcester and York were appointed Consulting Engineers for the Rural Water Scheme, Part II.

Regrouping of Water Undertakings.

The formation of a North West Worcestershire Water Board was deferred pending a claim by Kidderminster Corporation for differential water charges and negotiations are still in progress.

Tenbury Water Supply.

The town of Tenbury is supplied from the Council's Mains. The laying of the duplicate main from the reservoir to the Swan Hotel, intended to meet the increasing town demand, was completed by the end of April.

The exceedingly dry weather conditions experienced during the summer months led to a decrease in the output of the town's spring supply at Studley, and it became necessary to ration the supply by means of nightly "shut offs." The situation was relieved by an agreement between the Council and Birmingham Corporation for an increase of their daily supply from the Elan Valley aqueduct at Studley. This was carried out by substituting the 2" meter on their connection by a 3" meter.

Berrington and St. Michael's - Mains Water Supply.

As the result of a survey of properties in the areas of Berrington and St. Michael's for the need of a mains water supply, the Consulting Engineers, Messrs. John Dossor and Associates, were instructed to report on the possibility of laying mains in those areas.

Bockleton Water Supply.

Following an offer by the owner of the Bockleton Water Supply to hand over to the Council for a nominal figure, Mr. J.K.Seed, on the instructions of the Council, prepared a report on the undertaking which was accepted and an application was made under the Public Health Act 1936 to the Ministry of Housing and Local Government to acquire the undertaking by agreement.

Eastham School and Highwood - Water Supply.

The work on this scheme was undertaken and completed during the Spring under my supervision.

Water Supplies - Council Houses.

Difficulties were experienced in maintaining satisfactory supplies to several Council House Estates owing to breakdowns in pumping machinery. The Bayton, Mamble, Eardiston, and Woodgates Green Estates which are in the area served by the Rural Water Scheme, Part I, were connected to the mains supplies.

Water Samples.

70 samples of water were taken for examination during the year. 27 of these were found to be unfit for drinking purposes.

(No. of unfit Samples from Well Supplies - 17 )

(No. of unfit Samples from Spring Supplies - 10 )

In these cases, appropriate action was taken.

DRAINAGE AND SEWERAGE.

Plans prepared by the Council's Consulting Engineers, Messrs. Wilcox, Raikes & Marshall, of the Tenbury Sewerage and Sewage Disposal Scheme, were submitted in outline to the Minister.

Repairs were carried out to the public sewer in the Kyre Brook which resulted in the sewer discharging from an outlet into the Kyre Brook at a greater distance from the town.

Repairs were also carried out to the public sewers in Cross Street and Teme Street which had become obstructed.

An extension was made to the outlet into the River Teme of the Cross Street sewer so that the sewage would discharge into the deep mid-stream thereby abating the nuisances that were occurring owing to the drop in the river level during the exceptionally dry weather summer period.

#### HOUSE REFUSE COLLECTION.

Collections of house refuse are made weekly in the town of Tenbury and once every three weeks in the more rural parishes. The Council are using two tips for refuse, one at Kyrewood and the other at Mamble.

There has been a considerable increase in the quantity of household refuse during the last few years which has resulted in the main Council tip at Kyrewood being filled up more rapidly than the Council would desire. Unsuccessful efforts were made to find a third tip preferably in the Hanley - Stoke Bliss area. These efforts shall be continued to be made.

The Council shed at Rhyse Lane, Tenbury, was renovated for the purpose of storing scrap metal collected at the tips. Scrap metal merchants in the area were requested to submit competitive tenders for each load.

#### COUNCIL HOUSES.

A tender was accepted by the Council for a scheme for providing Old Peoples Dwellings at Trumpet Yard, Tenbury.

The West Midlands Gas Board were instructed to instal flues to the gas boilers in the bathrooms at The Crescent and Crescent Place, Tenbury, as a precaution against possible accidents.

The Midlands Electricity Board were approached regarding the provision of a mains electricity supply to the Lower Stockton Council Houses.

These two houses are the only remaining Council houses in the district without mains electricity. The capital contribution requested by the Board was found to be too high to be acceptable and the proposal was deferred to a future date in the hope that circumstances would influence the submission of an acceptable figure.

Following representations by the Severn River Board regarding pollution of the Cutmill Brook at Eardiston, the Council gave approval for the connection of the effluent drain from the Old Council Houses, Eardiston, to the drainage system and treatment plant serving the New Council Houses.

The Council approved in principle the decision to erect garages at Wheeler Orchard, Tenbury, for renting by council house tenants.

A firm of contractors was employed in the emptying of the sewage purification plants by the use of mobile tankers with suction apparatus. This has proved to be a far more economic and hygienic method than the previous practice of employing local building contractors to pump out and "lagoon" the contents of the septic tanks.

#### RODENT CONTROL.

The Council employ a full-time rodent operator. New contracts were made in addition to the contracts continued from the Ministry of Agriculture which amounted at the end of the year to a sum total of 70 contracts valued at £407. 10. 0.

HOUSING.

During the year no new Council houses were erected.

No Council houses were in course of erection at the end of the year.

Houses Erected During the Year.

By Local Authority .....	NIL
By County Council .....	NIL
By Other Bodies or Persons .....	6

Inspection of Dwelling Houses.

(1)(a) Total number of dwelling houses inspected for housing defects (under Public Health Act or Housing Acts) .....	17
(b) Number of inspections made for the purposes .....	22
(2)(a) Number of dwelling houses (included under One above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932 .....	NIL
(b) Number of inspections made for the purpose .....	NIL
(3) Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation .....	5
(4) Number of dwelling houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation .....	7

2. Remedy of defects without service of formal notices.

Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their officers .....

3. Action under Statutory Powers.

No proceedings were instituted during the year under the following provisions.

- (A) Sections 9, 10 and 12, Housing Act 1957.
- (B) Public Health Acts.
- (C) Sections 16 and 23 Housing Act 1957.

Housing Act, 1957 (Part IV) - Overcrowding.

- (a) (i) Number of dwellings overcrowded at the end of this year  
      (ii) Number of families dwelling therein ..... } Not  
      (iii) Number of persons dwelling therein ..... } known.
- (b) Number of new cases of overcrowding reported during the year - NIL.
- (c) (i) Number of cases of overcrowding relieved during the year - NIL.  
      (ii) Number of persons concerned in such cases ..... NIL  
      (iii) Number of houses again overcrowded after being previously relieved ..... NIL.

HOUSING (FINANCIAL PROVISIONS) ACT, 1958 AND HOUSE PURCHASE AND HOUSING ACT, 1959. - Improvement Grants.

- No. of Applications received during the year (Discretionary) ..... 6
- No. of Applications approved (Discretionary) ..... 5
- No. of Applications received during the year (Standard) ..... 5
- No. of Applications approved (Standard) ..... 5
- Certificates of Completion issued during the year ..... 3

Standard Improvement Grants.

The House Purchase and Housing Act 1959 introduced the Standard Grants which give assistance to the provision of limited amenities to most types of properties.

It is hoped that as the mains water supplies are laid through the district property owners will avail themselves of the benefits of these grants. There are general indications that this will be the case.

Discretionary Grants.

The Council continued making grants under the Housing (Financial Provisions) Act 1958.

RENT ACT, 1957.

No certificates of disrepair were issued during the year.

Slum Clearance.

The Slum Clearance programme was retarded during the year owing to Staff difficulties, though in the latter part of the year several property inspections were made with a view to representation to the Council in early 1960.

TOWN AND COUNTRY PLANNING ACT 1947.

During the year 57 applications were dealt with.

Applications approved ..... 40.

Applications refused ..... 17.

26 applications were in respect of proposed new housing, 10 in respect of proposed alterations and improvements to houses and 21 related to various proposals other than housing.

One application was withdrawn.

BUILDING BYELAWS.

Applications submitted and dealt with ..... 30.

" approved - Housing matters ..... 15.

" refused - " " ..... 1.

" approved - Other than housing ..... 14.

SUPERVISION OF FOOD.

Ice-Cream. There are no manufacturers of ice-cream in the district.

Pre-packed ice-cream only is sold from the premises registered. Three new premises were registered by the Council during the year. Premises and facilities remain satisfactory.

Food Premises.

54 visits and inspections of registered and other food premises have been carried out during the year. A good standard of hygiene has been maintained in most premises.

Slaughterhouses and Meat Inspection.

There are two slaughterhouses in operation in this district. The majority of the animals slaughtered in the district was at the newly constructed slaughterhouse at The Horns, Tenbury, and a great proportion of the output from these premises was "exported" outside the district.

Nearly 100% meat inspection was maintained during the year, though during the first five months until Mr. Knight, the Additional Public Health Inspector took up his duties, there was great difficulty in maintaining this standard, and it was only made possible by/aid provided by the County Health Department.

During the second half of the year just over  $2\frac{3}{4}$  tons of meat and offal were found to be unfit for human consumption and were consequently rejected.

The owners of the slaughterhouses were notified of the provisions of the new Slaughterhouses Hygiene and Prevention of Cruelty Regulations that were applicable to their respective premises.

NUMBER OF VISITS TO SLAUGHTERHOUSES - 409.

CARCASES AND OFFAL INSPECTED AND CONDEMNED IN WHOLE OR IN PART

	CATTLE EXCLUDING COWS.	COWS	CALVES	SHEEP AND LAMBS.	PIGS	HORSES.
Number killed (if known)	1899	161	88	12,415	4,307	-

Whole carcase condemned	-	-				
Carcases of which some part or organ was condemned.	1	-				
Percentage of the number inspected affected with Cysticerci.	0.05	-				

MILK AND DAIRIES.

There are no Pasteurising Plants in the District.

12 visits were made to dealers premises and general supervision maintained.

HOP-PICKERS ACCOMMODATION.

Owing to hop-picking machines being more widely used, fewer hop-pickers were imported into the District.

The condition of pickers quarters generally was fairly good.

The usual nursing facilities were provided to the hop farms in the District under arrangements made by the County Council.

PARTICULARS OF OTHER SANITARY MATTERS DEALT WITH.

<u>New Drainage Provided: (Excluding New Houses)</u>	<u>1959.</u>
(a) To Sewer ... ... ... ... ... ... ... ...	1
(b) To Septic Tank ... ... ... ... ... ... ...	1
Number of obstructed drains dealt with ... ... ...	7
